The rules are rewritten

It's time to tell you about our own working style, our lifestyle.

We return to ourselves. This is naft Leather Atelier, where everyone works respectfully and at an equal distance from each other. Here, production is done in unity and togetherness.

In the naft, there may sometimes be setbacks on the road to success. But the naft, regroups and is back on the road each time.

Isn't success a journey anyway?

Now the naft is on the way, on the way.

Now we are bringing Turkish leather, local capital and original designs together with the skillful hands of artisans. Now is the time to meet the whole world. We are on the way, we have a long way to go.

Would you like to watch this journey closely?

Stay tuned to follow the journey of the naft closely.

Get Leather Goods
Directly From
Manufacturer

We design our products ourselves and manufacture them in our production facilities. Our production capacity in Istanbul is tens of thousands of single products per month. We can transport these products directly to all over world.

We offer our products wholesale and retail. Kervan provides great advantages for those who sell products on international sales platforms and wholesale and retail in local stores. The main advantages are saving time and money. We offer you access to high quality products. Thanks to our agile and flexible production model, we offer the advantage of purchasing products directly from the manufacturer, instead of purchasing products from the manufacturer, wholesale supplier, wholesaler, regional dealer and dealer chain.
